- **It ensures always clean and bright fireplaces and stoves glasses.**

SUGGESTIONS

In case of anchored and persistent dirt, we suggest to let the product work for some minutes.

DESCRIPTION

A dirty glass represents a frequent unaesthetic problem for fireplaces and stoves because fumes, condensing on the glass, blacken the internal surface. CAMINET is the specific cleaning solution for the removal of the strongest dirt (such as tar and soot). Its special alkaline formulation is specific for a quick cleaning of fireplaces and stoves glasses, thanks to its ready-to-use solution.
