HO.RE.CA. & FACILITIES

LIQUID DETERGENT FOR PROFESSIONAL DISHWASHERS

- Easy to rinse.
- Compatible with hard water.
- High cleaning power.

SUGGESTIONS

The monthly descaling with **DISINCROSTANTE LAVASTOVIGLIE** guarantees clean and efficient machines. During the summer months, or when necessary, the addition of **BIOCLOR** directly in the wash cycle guarantees hygiene and deodorising.

DESCRIPTION

Very dirty plates with dried-on food are a problem when hundreds of them need to be washed quickly.

STOVILMATIC LIQUIDO is an alkaline, low-foam liquid detergent, with elevated degreasing power which guarantees the complete and hygienic cleaning of plates, cutlery, pans and glasses. It easily eliminates dried residual food and all kinds of dirt, leaving dishware perfectly clean. Its high degreasing power ensures perfect rinsing without leaving residue or streaks.

STOVILMATIC LIQUIDO

LIQUID DETERGENT FOR PROFESSIONAL DISHWASHERS

PHYSICAL AND CHEMICAL CHARACTERISTICS

Appearance	Clear liquid
Colour	Yellowish
Odour	Weak characteristic
Specific weight	1.255 ± 0.01 g/ml

pH	14

pH 

FOAMING POWER

None

AVAILABLE PACKAGING

Box of 4 cans - 6Kg each - 016SOVS0024

Can of 20 Kg - 016SOVSTN20

USE MODALITY

After filling with water, add a dose of STOVILMATIC LIQUIDO to the dishwasher according to the following table: with soft water 0-15°F, use 1ml/L of product
with water of medium hardness 15°-25°F, use 2ml/L of product
with hard water > 25°F use 3ml/L of product

Water hardness is expressed in French degrees (° F).

Product dosage is particularly precise and constant if an automatic dosing pump is used.
